TYPE A CHARTS

[Home \(/cms-nats/opencms/en/home/\)](/cms-nats/opencms/en/home/) / [Charts \(/cms-nats/opencms/en/Charts/\)](/cms-nats/opencms/en/Charts/) / Type A Charts

Type A Charts

The Type A charts depict data necessary to enable an aircraft operator to comply with stated ICAO limitations. Such limitations are intended to ensure that for each flight, accurate take-off performance calculations are made, and, in the event of an engine failure, an aircraft can either abandon the take-off run and stop safely, or, become airborne and clear obstacles by the required margins.
